## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art fails to disclose a mobile computer for use in a traffic signal priority control system comprising a processor containing an algorithm that evaluates a vehicle status with respect to the mobile event criteria and activates the mobile event if the mobile event criteria are met, wherein the processor evaluates the vehicle status with respect to a sequence of mobile events containing a parent event and at least one child event, and wherein the processor activates the mobile event if the mobile event criteria for the parent event and the at least one child event are met. These limitations are neither taught nor obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
